

EEMUA Forum Benelux Region

Safe and Effective Industrial Asset Management

A one-day participative forum and networking event for managers and engineers in the chemical, pharmaceutical, power, energy, storage and general processing industries, water and utilities sectors.

Thursday
22 September 2011

Venue:
Ridderkerk – Rotterdam

Supported by

Who should attend and the programme

This Forum is aimed primarily at the engineering managers within industrial process operating firms, power generators, storage and utility companies of all sizes - from small and medium chemical manufacturing enterprises working with minimal in-house engineering resources, through multi-site storage, processing and distribution companies, up to large refineries and other top-tier COMAH sites with international operations.

This Forum should also be of relevance to the operations directors, process safety managers, professional engineering specialists, project managers and others involved in industrial asset management and integrity management within such organisations.

The programme*

Timings	Topic
09.30 – 10.30	Registration & Refreshments
10.30 – 11.00	Welcome & Introduction to EEMUA - Clive Taylor, EEMUA Executive Director
11.00 – 11.30	Addressing some current issues with storage tanks and tank farm management - Jan de Jong, Chairman of EEMUA Storage Tank Committee
11.30 – 12.00	Ensuring safe working in hazardous areas through a proven approach to competency development and certification - Martin Jones, EEMUA CompEx® Scheme Manager
12.00 – 12.30	Implementing “Process Safety Management”- a case study - Martin Sedgwick, Scottish Power
12.30 – 14.00	Lunch/Networking/Exhibition
14.00 – 15.00	Workshop: A practical approach to implementing “Process Safety Management” in your organisation - Facilitated by Scottish Power in association with EEMUA
15.00 – 15.15	Refreshments/Networking/Exhibition
15.15 – 15.45	Implementation of the PGS29 guideline for storage tanks in the Rotterdam-Rijnmond area – Robert Ruigrok, DCMR
15.45 – 16.00	Closing Q & A
16.00	Forum Close

*Timings and programme as planned (may be subject to change without prior notice).

The purpose of this Forum & key benefits

The purpose of this event is to bring EEMUA locally to your region, allowing you to meet and talk with some of its leading members, listen to their views and those of the regulator, and become part of the very special engineering network that is EEMUA.

Safe, effective industrial asset management makes a vital contribution to your organisation's reputation and profitability. EEMUA provides not only guidance on good and best asset management practices, but also gives professional engineers and managers like you access to a multinational, self-help network of your peers working in operating companies large and small across a variety of industry sectors – a rich resource of talent and knowledge that's considered particularly valuable for the smaller plant operating company.

Forum key benefits

- **GAIN** an overview of the latest developments, and what may be around the corner
- **HEAR** what other plant operators think and the practices they are adopting
- **BUILD** or extend your network of engineers and managers from other companies who are facing similar challenges to yourself in optimising safety, quality, cost and performance
- **MEET** leading participants in EEMUA, the membership organisation that develops and promotes leadership in industrial asset management

Supported by

The speakers

EEMUA has arranged for a team of speakers* to be available to cover its various Regional Forums, drawn from both EEMUA member companies and regulatory authorities.

The Benelux Forum speakers include:

Robert Ruigrok is a Senior Advisor in DCMR's department of permit process industry, working closely with the process industry inspection department on improving the environmental performance of petrochemical and chemical companies. He has more than 18 years of experience in environmental monitoring and inspection, including 7 years working as an intermediary between companies, the public and governmental organisations, assisting in the investigation of incidents.

Martin Jones manages the **CompEx**® scheme for **JTL** on behalf of EEMUA. Martin's main focus is promoting CompEx as the preferred Competency Validation of Personnel Scheme for electrical and mechanical equipment users in hazardous areas.

Jan de Jong is director/owner of **D&C Engineering** and has chaired the Storage Tanks Technical Committee of EEMUA since 2000. He has co-authored several EEMUA Publications in this area and is Course Leader of the EEMUA **CompeTank**™ scheme.

Martin Sedgwick was appointed Head of Asset Management at **ScottishPower Energy Wholesale** in 2007. In this role, he is responsible for asset management policy and strategy, group engineering, project delivery and technology development strategy.

Clive Tayler, EEMUA Executive Director, is the chief executive of the Association and is based at its headquarters in London. Clive has spent many years in the chemical process and pharmaceutical industries, in various global regulatory, compliance and engineering roles with multinational companies. He has also founded and successfully developed several small businesses. Originally trained as a chemical engineer, he is also a chartered instrument engineer.

*EEMUA reserves the right to change the speakers, should they be unavailable, without prior notice.

Qualifying* EEMUA members can attend FREE of charge**

This EEMUA Forum is aimed at **operating company personnel only**.

- **Simply e-mail events@eemua.org giving your name, company name and work contact address and phone number, confirming your wish to attend the Benelux Region Forum.**
- **We will confirm your FREE place once we have verified your application and completed your registration.**

NOTE: If you do not receive a confirmation, this may be because we could not verify your application or we did not receive your e-mail - you are strongly advised to contact us before travelling to the event, to avoid possible disappointment if the event is fully booked or you do not qualify.

If you are not sure whether you qualify:

Call EEMUA on +44 (0)20 7621 0011 for advice.

*Qualifying means an employee of an EEMUA member company that is a plant owner or operator.

**Subject to prior registration and acceptance: terms and conditions apply; venue numbers limited.

If you are from a qualifying[†] company that is not at present an EEMUA member company, the registration fee for each delegate is €135.00 Euros

This event is aimed at operating company personnel only.

[†]Qualifying company means a process plant owner/operator company.

Please complete and post a Registration form for each non-member delegate applying to attend.

Registration forms can be downloaded online at www.eemua.org

Post: EEMUA, 10-12 Lovat Lane, London EC3R 8DN

Fax: +44 (0)20 7621 0022

E-mail: events@eemua.org

Any questions, please see the Q & A's opposite or phone **+44 (0)20 7621 0011**

Full payment should be made at least two weeks prior to the commencement of the Forum.

FREE for Qualifying EEMUA Members

If you would like to find out more about the benefits of becoming an EEMUA member company, go online to www.eemua.org or call **+44 (0)20 7621 0011**

Who runs these Forums on industrial asset management?

These Forums are run by EEMUA (Engineering Equipment and Materials Users Association), an international non-profit membership organisation.

EEMUA aims to improve the safety, environmental and operating performance of industrial facilities in the most cost-effective way, developing and promoting leadership in industrial asset management. EEMUA members pursue these aims by sharing engineering experiences and expertise, and by the promotion of their distinct interests as the users of engineering products.

How do I check whether my company is a member of EEMUA, or would be eligible for membership?

If you are not sure whether your organisation is a member, or to enquire about eligibility for EEMUA corporate membership, call **+44 (0)20 7621 0011** and ask to speak with the Membership department.

As a guide, if your organisation owns or operates industrial plant, storage and distribution terminals, pipelines, or similar physical assets that require engineering asset management, it is likely that you will be eligible for membership. EEMUA is run by, and for the benefit of, such organisations.

Can you help me with accommodation?

Yes. We expect most people will want to travel on the day; however, there are a limited number of rooms reserved at the venue for the night before the event at a special discounted rate, and we will be pleased to help arrange accommodation if you wish.

Call EEMUA on **+44 (0)20 7621 0011** and ask to speak with the Events department.

Can I get a tax (VAT) receipt?

We can provide you with a receipt for your payment, however, as EEMUA is exempted from VAT, there is no tax (VAT) payable on this event.

Will other Forums be held?

EEMUA organises Forums regionally across Europe.

Further events will be organised in the future if your feedback suggests there will be demand.

Check our website www.eemua.org or call **+44 (0)20 7621 0011** for the latest news about dates and venues.

Delegates should benefit from the opportunity to meet and talk with their counterparts from leading operating companies.
